International FASD Awareness Month

Poem/Story - What does FASD mean to you?

FASD stands for Fetal Alcohol Spectrum Disorder. It is a lifelong disability that affects the brain and body of people who were exposed to alcohol in the womb. Each person with FASD has both strengths and challenges and will need special supports to help them succeed with many different parts of their daily lives.

The more we talk about FASD the better outcome we can create by reducing the stigma associated with FASD, and bringing in better supports.
